

 **PERGE**
MARITIME AND SHIPPING AGENCY

...DDING AGENCY

PERGE MARITIME was founded in 2010. Since it was established, our company is constantly evolving and growing. Our rapid growth in such a short period is the best proof of Perge's professional philosophy of working and approach to maritime and offshore business. Currently, Perge Maritime represents Russian, Ukrainian, EU and United States ship owners, managers and charterers.

PERGE MARITIME offers tailor made agency services at all Turkish ports and straits to vessels, owners and charterers for their operational, official, financial, legal representation to fulfill their voyage requirements. Our main profession is shipping agency, customs and logistic operations for offshore projects, a field which all of our staff is fully experienced for more than 10 years in shipping business.

PERGE MARITIME has official agency licence from Maritime Directorate and also is a full member of Chamber of Maritime and International Tug and Salvage Union (ITS).

OFFSHORE drilling, exploration and production operations logistic services

PERGE MARITIME's mission is to provide a complete service to our clients both in marine and offshore field and to anticipate and customize clients' needs by providing truly personalized and efficient service with competitive prices.

Especially in offshore market, which is a brand new and fast growing market in Turkey, our team is well experienced and we are one of the best companies in this field. We can provide a realistic customs service and assist in any other local legal procedures as well as finding solutions to any sophisticated situations.

During offshore operations, our main job is to connect vessels and rigs to shore bases. We are following latest global technologies and other applications. Mostly, drilling depths in Turkey are not more than 90 m and 20 nm away from shore. In order to make a fast and safe link from shore bases to project areas, we have 3 fast HDPE boats in our inventory. All boats are produced in our facility in Istanbul. We have completed certification and registration by Turkish Lloyd. We are providing all kinds of logistic services with our boats, which are fully equipped and adapted for offshore operations.
